

*More than groceries*

**Dear All:**

We take the privilege of being your neighbor seriously. Your concerns in this community are our concerns, as well. The development of the COVID 19 virus and it's growth is currently at the forefront of all our minds. **Our Harvest Market leadership team** is monitoring our news sources, area school districts and health experts. **We are keeping our employees informed of procedural changes and concerns in order for them to keep themselves and our store environment safe.**

The Centers for Disease Control and Prevention outline information on how to keep yourself, community, business and home safe and healthy. You can visit this link <https://www.cdc.gov/coronavirus/2019-ncov/community/index.html> for details.

Stocking your home with essentials is a natural reaction to such a broad national concern. We want to assure you that we are doing our best to source, quickly shelve and fairly sell the items that are in demand daily; such as hand sanitizer, toilet paper, bottled water and disinfectant cleaning supplies. In an effort to meet the need of as many of our guests, as possible, we will have product limits in effect. You may find signs placed on our shelves near the limited item.

Harvest Market already takes health and wellness seriously, as it is a part of our whole person approach to shopping and the Harvest Market experience. For those that are interested in preventative measures – our own in-house Health & Beauty department has over 10,000 products to enhance your well-being. We have an extensive collection of immunity products to boost and support your system for preventative measures.

We are following the CDC and **World Health Organization** guidelines for prevention and will continue to do so.

- Try to avoid close contact with people who are sick.
- Cover your cough or sneeze with a tissue, then throw the tissue in the trash.
- Avoid touching your eyes, nose and mouth.
- Clean and disinfect frequently touched objects and surfaces.
- Stay home when you are sick, except to get medical care.

- Please, WASH YOUR HANDS OFTEN WITH SOAP AND WATER FOR AT LEAST 20 SECONDS.

Let's remember not to panic. and to keep promoting prevention methods and awareness from trusted sources.

We are especially grateful for your loyalty and we look forward to welcoming you to your favorite One-stop grocery store!

Vice- President,

Jason Ergen

A handwritten signature in black ink that reads "Jason Ergen". The script is fluid and cursive, with the first letter of each name being significantly larger and more stylized than the others.
